DUCKPIN BOWLING

ACCESSIBLE. SOCIAL. BOWLING.

Want to differentiate your customer experience and keep people at your business for longer?

Duckpin-it!

UNIQUE OFFERING

Adding duckpin bowling is a great way to “wow” your customers and have them leave with a unique and memorable experience.

DIFFERENTIATOR

Odds are your competitors don’t offer bowling and our duckpin bowling installations are great at helping you stand out from the crowd.

SPEEDY INSTALL

Once we develop your installation plan and design scheme, our expert team will bring your vision to life as quickly as possible.

With origins dating back to the 1890s, duckpin has a long history. While there is a huge competitive community of duckpin bowlers, the sport is gaining steam among casual bowlers as well. Why? Largely because duckpin lanes are much more accessible for venues with minimal space to work with. From corporate HQ to breweries, and hotels to bars, duckpin is a great way to bring people together at venues not typically known to offer bowling. With smaller everything (lanes, balls, pins, etc.) duckpin might be just the right size for your business.

FUNK NEXUS

AI-ENABLED BOWLING SCORING TECHNOLOGY

WHERE BOWLING MEETS IMAGINATION

NEXUS is AI-enabled cloud technology that turns every lane into high-energy entertainment. It's a modular platform built around your bowling vision, with ever-changing, cutting-edge visuals that keep guests engaged.

THE EXPERIENCE

Fun. Exciting. Immersive.

AI-POWERED SCORING THEMES

Every strike and spare becomes a visual celebration.

REAL-TIME ON-LANE PROJECTION

Responsive visuals projected onto the lane with every roll.

ARCADE-INSPIRED BOWLING GAMES

Classic bowling meets arcade play: every frame is an adventure.

• Real-time animations with every throw • Customizable graphics & event themes • Keeps guests engaged longer

SCAN TO SEE NEXUS

OPERATIONS BOOSTER One cloud platform. Total control.

SELF-SERVICE CHECK-IN KIOSKS

Remote and on-site check-in, so guests start playing on their own.

AUTOMATED LANE ASSIGNMENT

Automatic lane assignment, game setup and smart queueing.

CENTRALIZED MANAGEMENT

Lane control and analytics for every location, from anywhere.

• Lower labor needs • Less lane idle time • Remote hardware monitoring • Continuous updates for maximum uptime

NEXUS GAME MODES

BOWLING... BUT WAY MORE FUN.

New arcade-style challenges give guests more ways to play: compete, laugh and come back for one more game.

NEW ARCADE GAME

GHOST HUNT

One player runs as the ghost while everyone else tries to catch them.

NEW ARCADE GAME

FUNKY KART

Hit your shot to race ahead and knock your rivals back.

NEW ARCADE GAME

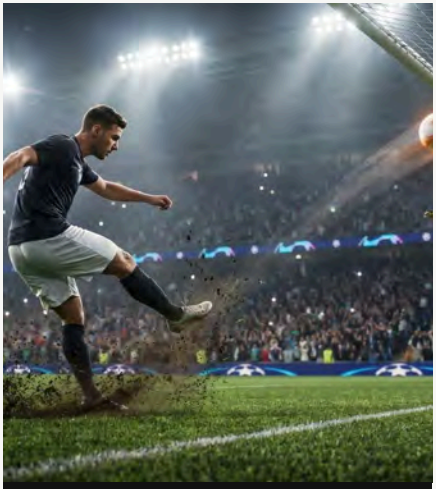

SPACE SHOCK

Keep your spaceship alive. It's about surviving, not just scoring.

ON-LANE PROJECTION GAMES

EVERY FRAME FEELS DIFFERENT.

Interactive games projected right onto the lane, reacting to every roll.

ON-LANE PROJECTION

SHOOT OUT

Score a goal to activate the pin count. The goalie moves every frame, making it harder to score.

ON-LANE PROJECTION

POWER-UP BOWLF

Collect power-ups as your ball rolls to boost your chance of winning.

ON-LANE PROJECTION

PIRATE TREASURE

Grab gems and coins on a water-covered lane. Pins multiply your treasure.

THE BUSINESS MODEL

August 2026 monthly benchmarks
Observed activity. Modeled revenue.

THE REVENUE LOGIC

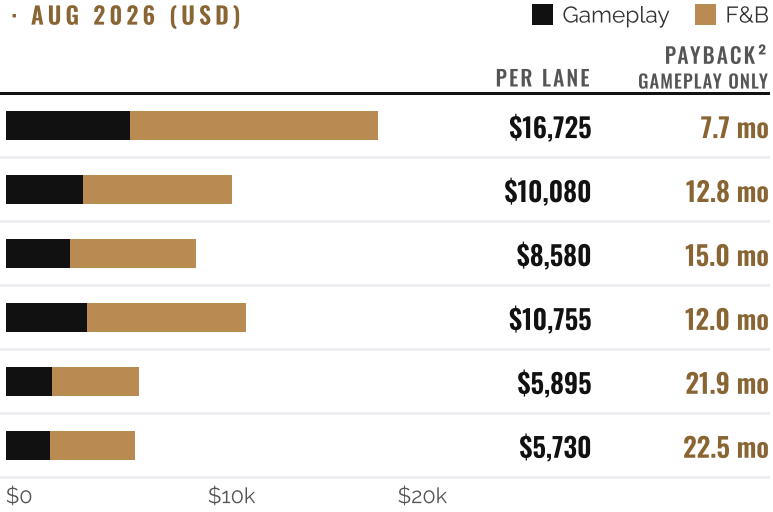

Monthly sessions × [(lane-hours × US$30) + (guests × US$15)]

Example: 100 × [(1 hour × US$30) + (4 × US$15)] = **US$9,000 / month**

63.7–185.8
OBSERVED MONTHLY SESSIONS PER LANE[1]

$5.7k–16.7k
MODELED MONTHLY REVENUE PER LANE[1]

MONTHLY REVENUE PER LANE · SIX VENUES · AUG 2026 (USD)

VENUE PROFILE	LANES	SESSIONS	PER LANE	PAYBACK[2] GAMEPLAY ONLY
A Enterprise entertainment	6	1,115	$16,725	7.7 mo
B Hospitality-led social	6	672	$10,080	12.8 mo
C Multi-attraction social	6	572	$8,580	15.0 mo
D Urban pub & playground	4	478	$10,755	12.0 mo
E Mall-based FEC	6	393	$5,895	21.9 mo
F Traditional bowling center	6	382	$5,730	22.5 mo

UPPER-PERFORMING BENCHMARKS

A: $16,725 / lane / month · D: $10,755 / lane / month

Modeled from observed activity. Reference points, not a typical return or guarantee.

WHY RESULTS VARY

Foot traffic, pricing, group size, opening hours, venue mix, booking execution and F&B service. Test these inputs against your own site.

[1] Data taken from 6 selected Funk duckpin locations across North America, not a market-wide sample; Funk Bowling does not guarantee these results. Monthly August 2026 activity: A–E August 1–31; F August 1–30, not extrapolated. Sessions and lanes are observed. Revenue is modeled: 1 lane-hour/session (assumed, not measured), US$30/lane-hour, 4 guests/session and US$15 F&B/guest; monthly sessions × [(1 × 30) + (4 × 15)] ÷ lanes. Estimates exclude tax and other attractions; no added event or cross-selling uplift. Not audited sales, profit or incremental F&B. No annualization.

[2] Illustrative payback for a 4-lane installation at US$160,000, using each venue's modeled gameplay revenue only (F&B excluded), net of cleaning labor and maintenance (5% of revenue) and energy (2%). Excludes staffing to run the lanes, cloud license and rent; actual payback will vary.
